Carrier Lewis DelRosso, Senator Devlin Robinson, and Senator Lindsey Williams along with Chief of Staff, Megan Winters. The Family Care Act proposes legislation to aid hard-

working families and increase job retention through a paid family and medical leave insurance program for all eligible employees in the state of Pennsylvania. Administered by the PA Department of Labor & Industry, the proposed program would allow employees to pay into the state Family and Medical Leave Insurance Fund. Paid family and medical leave benefits would be given to employees in the event of a serious health condition for themselves or a family member, to care for a newborn child, or various qualifying circumstances involving members of the military.

“Melissa and I are proud to host this event and highlight the importance of taking care of our growing workforce. We welcome the group of legislative leaders and their fight to make paid family and medical leave available for other Pennsylvania workers. “ – Ryan Vecchi
