

DermaCare BioSciences Starts GoFundMe Campaign to raise Money for Rapid COVID Antigen Tests for India

USA Based DermaCare BioSciences, a div of Dermacare Packaging & Private Label launches a GoFundMe campaign to raise money for Rapid Antigen Test Kits for India.

DELRAY BEACH, FLORIDA, UNITED STATES, April 29, 2021

/EINPresswire.com/ -- USA Based DermaCare BioSciences, a division of Dermacare Packaging & Private Label, LLC has started a GoFundMe campaign to raise money for Rapid Antigen Test Kits for India.

The company, based in South Florida, has had success supplying millions of these Covid-19 rapid tests worldwide for nearly a year, according to Chief Sales Officer and GoFundMe Organizer, Kelly Stone.

EasyRapidNOW Nasal Swab Antigen Test Kit - Help Stop the Spread!

“India is in dire need of COVID supplies”, said Stone. “We’ve been producing and distributing Rapid Antigen Tests since 2020. These tests detect certain proteins in the virus using a non-invasive nasal swab to get a fluid sample. Our antigen tests can produce results in minutes and help India to get Covid under control by rapidly recognizing infected individuals.”

Stone goes on to say, “We want to raise money to donate 1 Million tests to start. We as a company are donating 10,000 tests. Please help us reach our goals so we can get at least 1 Million Tests to India ASAP and help stop the spread of COVID 19!”
