

ReleaseOwl announces DevOps for SAP Integration Suite with Versioning, Automated Deployment, Rollback and compliance

ReleaseOwl, ONE native DevOps platform for SAP announce full range DevOps for SAP Integration Suite with automated deployment, rollback, security and compliance

HYDERABAD, TELANGANA, INDIA, May 3, 2021 /EINPresswire.com/ --

ReleaseOwl, the ONE native DevOps Platform designed for SAP applications has announced DevOps for SAP Integration Suite (earlier branded SAP Cloud Platform Integration, SAP CPI).

This ReleaseOwl extension will greatly benefit customers using SAP Integration Suite with the following capabilities:

DevOps for SAP Integration Suite with support for automated deployments, roll back and compliance enables SAP customers experience accelerated delivery of integration content with higher reliability."

*Niranjan Gattupalli, Founder
CEO of ReleaseOwl*

- Versioning for the Integration Content like IFlows, Value Streams
- Configuration Editor to compare and update the environment specific changes for the landscape.
- IFlow Configuration Manager
- Automated Deployment of SAP Integration Content (CPI Content)
- Backup and Rollback of SAP Integration Content
- Security and Compliance checks for Iflows and Value Streams.

"We see growing adoption for SAP Integration Suite (EiPaas) that connects applications, processes providing

more power to the SAP Business Technology Platform. With ReleaseOwl DevOps offering for SAP Integration Suite, Customers now can maintain versions and manage parallel landscapes of their

Integration content, perform automated deployments, run security checks and have a back and rollback strategy for the Integration Suite connecting multiple systems. This is a new dimension for ReleaseOwl that already has full range DevOps for SAP On-Premise, and SAP Hana Cloud" - commented Niranjana Gattupalli, Founder CEO of ReleaseOwl.

Here is quick summary of the product capabilities of ReleaseOwl:
