

PMTAFiled.com Lists Products Accepted by the FDA for the PMTA Approval Process

An industry leader with rigorous verification standards is now listing products accepted for the PMTA approval process.

MIAMI, FLORIDA, UNITED STATES, May 4, 2021 /EINPresswire.com/ -- Representatives from PMTAFiled.com announce that it is now listing products accepted by the FDA for the PMTA approval process.

Laura Tobin, press manager and spokesperson for PMTAFiled.com explained that for those who have filed a PMTA with the FDA for a product or set of products, all they have to do is [fill out the form](#) on its website to be listed on PMTA Verified.

Website visitors can also [browse](#) PMTA Verified products.

PMTA Verified's mission is to provide up-to-date, unbiased, comprehensive product status information to allow adult consumers and the trade to make informed decisions on Premarket Authorized Products and beyond.

PMTA Verified is backed by Vape Safe Foundation, founded by Carlos Smith, MD, a board-certified emergency medicine physician. Dr. Smith has more than 20 years of acute care emergency medicine experience and is certified in both Advanced Cardiac Life Support as well as Advanced Traumatic Life Support.

PMTA Verified was born in 2016 by a nonprofit organization founded by a group of concerned Vaper's and Industry leaders unsure where the pathway led.

Now in 2021, the company is driven down that path by a team of experts that believed back then as much as they do today.

The company is led by Smith and a passionate group of professionals that have all witnessed the impacts firsthand of limited solutions and misinformation within the communities and patients they serve.
