

Optessa Selected by MAPEI for Batch-Based Scheduling

MAPEI Corporation has selected Optessa to provide batch-based scheduling solutions for their Chicago plant.

EDMONTON, ALBERTA, CANADA, May 6, 2021 /EINPresswire.com/ -- [Optessa](#) Inc ("Optessa") is pleased to announce that we have been selected by MAPEI Corporation, to provide batch-based scheduling solutions to support their operations at their Chicago plant.

“This was a multistage scheduling problem with unique challenges. Inventory policies and space constraints had to be observed while considering different batch sizes and production efficiencies across production stages.” said Rik Nagelkerke, Director of Business Development for Optessa. “We successfully completed a pilot at MAPEI. We are proud to have once again shown Optessa’s ability to address complex problems across distinctly different industries.”
