Tuesday, May 4th, 2021: Today, uniphispace agency, a division of uniphispace good LLC, is proud to announce the line up for the sixth annual National Astronaut Day®, featuring an incredible line-up of Astronauts, musicians and entertainers, all participating in virtual, free, family-friendly

Astronaut Alan B. Shepard Jr., prepares for his Mercury Redstone 3 launch on May 5, 1961. Shepard's Freedom 7 Mercury capsule lifted off at 9:34 a.m. from Launch Complex 5 at Cape Canaveral Air Force Station. He became the first American to fly into space

events, activities and performances on Wednesday, May 5th, 2021.

In keeping with the tradition of other Astronaut and Space related celebrations, May 5th was selected for this significant date in history, 60 years ago, in 1961 when Astronaut Alan Bartlett Shepard Jr. became the First American in Space, aboard the Freedom 7 Space capsule. The brief suborbital flight, which lasted approximately 15 minutes and reached a height of 116 miles into the atmosphere, was a milestone achievement. This trailblazing example of heroic bravery and adventurous spirit is this essence of what National Astronaut Day® is all about.

The 2021 National Astronaut Day® celebration also features a touching tribute video in honor of Astronaut Alfred "Al" Worden, featuring Astronaut readings of his poem Oceans, from his book of poetry "Hello Earth: Greetings from Endeavour. "

We Believe In Astronauts. The trailblazing examples of heroic bravery and adventurous spirit of Astronauts is this essence of what National Astronaut Day® is all about.

“

Fix your little problem, and light this candle.”

*Astronaut Alan B. Shepard, Jr.
(May 5th, 1961) First American in Space*

National Astronaut Day® is honored to present an incredible line up of virtual programming and social media events with Astronauts, musicians, entertainers, charity partners and collaborators, all of whom have graciously donated their time and talents. The goal for the 2021 celebration was not only to recognize and honor Astronauts, their remarkable achievements, and the significance of May 5th in the history of human space

exploration, but also to provide entertainment, inspiration and levity for all during this continually challenging and uncertain time.

#WeBelieveInAstronauts:

Why Do #WeBelieveInAstronauts? The incredible experience of traveling through space is something we all dream about at one time in our lives. For a very select few, this dream became a reality. The path for every Astronaut is different, and Astronauts come from a diverse range of personal and professional backgrounds, but the one thing they all have in common - they are leaders in their chosen field, pioneers of space, and seek to use their individual experience as Astronauts to help make the world better for ALL.

Please join us as we celebrate these amazing individuals, their unique experiences, and ultimately, to help spread the message that... no matter what our journey in life we are ALL Astronauts. #WeBelieveInAstronauts

About uniphi space agency:

uniphi space agency, a division of uniphi good LLC, is honored to be the exclusive management agency for a diverse range of former Astronauts. Their stories and experiences lend to some of the world's most compelling book projects, speaking engagements, and brand collaborations. Our goal is to help celebrate and share the stories and experiences of our Astronaut clients by differentiating between each individual's specific experience and point of view, aligned with key strategic opportunities, to help motivate and inspire future generations of Astronauts to come. #WeBelieveInAstronauts
