the spaces around them, after having spent so much time indoors. Modern Faeries will consult with clients to make spaces peaceful, practical and personal. Modern Fairies can also transform home offices into serene, focused environments for those working off-site for their companies.

“Modern Faeries combines the ancient wisdom of Feng Shui, the science of energy flow, together with modern interior design and space planning techniques,” said Kimberly Poppe, Co-Owner of Modern Faeries. “We want to bring our clients comfort and peace in their homes by creating spaces that inspire. Each of us is a trained expert in [Pranic Feng Shui](#), a unique and

essential approach to the science of energy flow as taught by Master Choa Kok Sui. This is the main foundation we use in our work with clients, combined with modern design to deliver inspiring interiors.” Poppe also studied interior architecture and design at Parson’s School of Design in New York City, one of the top design schools in the world.

Co-Owner Eef Bons-Joshi commented, “Our goal is to set you free in your own space. We will create balance, peace, and harmony so you can breathe. The idea is that these qualities will then naturally spread throughout every area of your life. We can make any space feel like home, and if you are in the process of looking for a new home, we can help find one that will make you feel happy and comfortable from the start. We assess the good flow of energy, how to correct and optimize it and support clients to make this happen.”

Modern Faeries works in person in the Netherlands, but also offers virtual consults to its global clients.
