

# What we feed the field matters: Are you adding love or fear?

With Rollin McCraty, Claudia Welss & Manose on May 15th at 12pm PT

SAN FRANCISCO , CA, USA, May 12, 2021 /EINPresswire.com/ -- Thought leaders, Dr. Rollin McCraty from the HeartMath Institute, Claudia Welss from the Global Coherence Initiative and musical guest, Manose Newa, come together to pulse the field with love in a synchronized Global Coherence Pulse event.

They will explore the idea that love is the frequency that unifies and lifts our vibration allowing us to rise above our normal levels of consciousness and heal the separations within the self and with others.

Dr. Rollin McCraty, Director of Research at the HeartMath Institute

As more genuine care for each other streams through our interactions, this dissipates clouds of density and repressed energies from separation which will help society draw new intuitive solutions for personal, social and global challenges. It's more important than ever to broadcast love, compassion, and calm into the global energetic field.

“

Regenerating Bliss,  
reminding my weary Spirit  
what is possible! Coherence  
in resonance with all of  
Creation.”
