

codemantra U.S. LLC Named SIIA Business Technology Product CODiE Award Finalist

codemantra, a global leader in intelligent document processing, has been named a 2021 CODiE Award finalist in the Best AI-Enabled Content Solution category.

BOSTON, MASSACHUSETTS, UNITED STATES, May 12, 2021

/EINPresswire.com/ -- codemantra U.S. LLC, a global leader in intelligent document processing, today announced that accessibilityInsight™ was named a 2021 SIIA CODiE Award finalist in the Best Artificial Intelligence-Enabled Content Solution category. Finalists represent the best products, technologies, and services in software, information and business technology.

Company logo alongside the 'CODiE Award Finalist' logo

accessibilityInsight™ is a customizable AI-powered platform that accurately classifies the structure of a document and automates workflows through a seamless combination of machine learning and human intelligence to deliver contextually rich, accessible output compliant with both national and international accessibility standards.

Acknowledged as the premier awards program for the software and information industries for over 35 years, the SIIA CODiE Awards are produced by the Software & Information Industry Association (SIIA), the principal trade association for the software, education, media and digital content industries. codemantra's accessibilityInsight™ was honored as one of 153 finalists across the 43 business technology categories, including two categories in response to COVID-19.

"The 2021 CODiE Award finalists continued to innovate, pivot, and grow to develop truly remarkable products throughout a historically challenging year. These finalists maintain the vital legacy of the CODiEs in spotlighting the best and most impactful apps, services and products serving the business tech market. Congratulations to this year's finalists on this well-deserved

recognition,” said Jeff Joseph, SIIA President.

“I think being chosen as one of the four CODiE Award finalists in the Best Artificial Intelligence-Enabled Content Solution category is a testament to our platform's ability to deliver fully accessible documents,” said Ian Smith, Director, Accessibility – Products & Technology at codemantra. “This kind of recognition renews our passion and determination to continue with our mission of making the web more inclusive for internet users regardless of their abilities.”

The SIIA CODiE Awards are the industry's only peer-recognized awards program. Business technology leaders including senior executives, analysts, media, consultants and investors evaluate assigned products during the first-round review. Their scores determine the SIIA CODiE Award finalists which accounts for 80% of the overall score. SIIA members then vote on the finalist products and the scores from both rounds are tabulated to select the winners. In light of the COVID-19 pandemic, Business Technology category winners will be announced during an online winner announcement celebration, June 22, 2021.

Details about each finalist are listed [here](#).

About codemantra U.S. LLC

codemantra is a global leader in Intelligent Document Processing (IDP).
