

# Anatomic Pathology Equipment And Consumables Industry Grows With Increasing Occurrence Of Chronic Diseases

*The Business Research Company's Anatomic Pathology Equipment and Consumables Global Market Report 2021: COVID-19 Growth And Change To 2030*

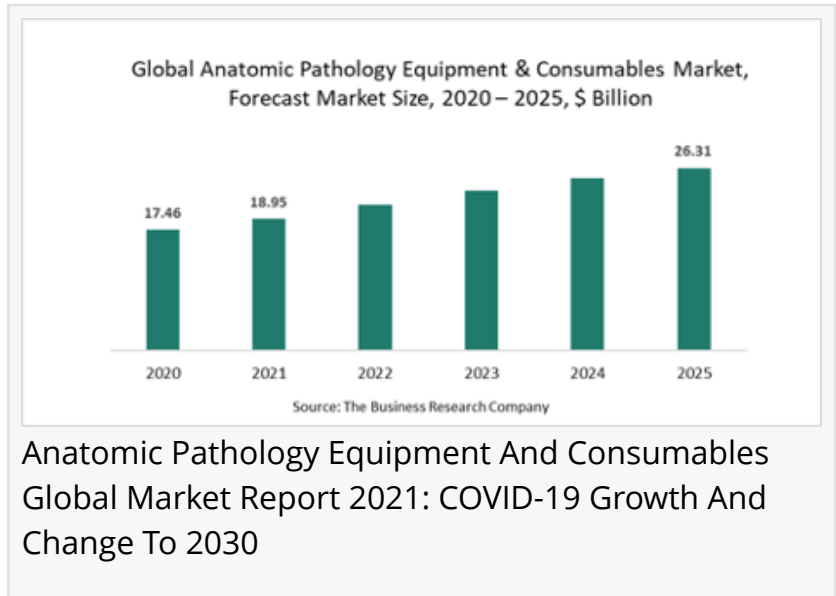

LONDON, GREATER LONDON, UK, May 11, 2021 /EINPresswire.com/ -- The rising occurrence of chronic diseases such as cancer is expected to drive the demand for the anatomic pathology market. According to the American Cancer Society, there were 1.7 million new cases and 0.6 million cancer deaths in 2019 in the USA. The four

most common types of cancer worldwide are lung, prostate, bowel, and female breast cancer, accounting for 43% of all the new cancer cases. Therefore, the rise in cancer incidence rate globally is anticipated to boost the demand for [anatomic pathology equipment and consumables market](#).

The anatomical pathology equipment and consumables market consists of sales of anatomical pathology equipment and consumables and related services by entities (organizations, sole traders and partnerships) that manufacture anatomical pathology equipment and consumables to diagnose diseases. Anatomic pathology is a branch of science in which the diagnosis of the disease is carried out by examining tissues and organs at a molecular, biochemical, and microscopic level.
