

# Global Pricing Data provider Mintec confirms strategic partnership with Food Industry Software Leader Foods Connected

*This partnership will harness the rich procurement functionality of the Foods Connected platform along with the data and analytics provided by Mintec.*

BOURNE END, BUCKINGHAMSHIRE, UNITED KINGDOM, May 11, 2021 /EINPresswire.com/ -- Global food [pricing data](#) and analysis provider [Mintec](#) is proud to announce a new integration partnership with Foods Connected, a leading software provider of end to end solutions for Supply Chain, Procurement, Food Safety, Quality and CSR for the food industry.

In a powerful step forward for both businesses, the two leading software and data providers will join forces, adding significant value to their respective product offerings. This partnership will harness the rich procurement functionality of the Foods Connected platform along with the data

and analytics provided by Mintec to deliver greater real-time market insight to businesses allowing them to compare their own internal performance against independent industry data.

The direct connection between Foods Connected's supply chain management software -which features procurement, trading, planning and logistics solutions - and Mintec's powerful intelligence and pricing data offering '[Mintec Analytics](#)' will allow food businesses across the globe the ability to quickly unlock the value and transparency in their

“

The partnership with Foods Connected will deliver an end-to-end solution to supply chain professionals that helps them better understand their supplier prices.”

increasingly complex supply chains. By realising optimal pricing outcomes with industry-wide pricing trends and comparison analysis, food companies globally can take advantage of significant cost reductions and ensure evidence-based trading decisions in record time.

At Foods Connected, we pride ourselves on our expertise and our ability to simplify complex tasks for our customers, taking the guesswork and time out of searching for information. As we continue to grow, we are excited to be working with data intelligence experts such as Mintec to better innovate our offering and keep delivering above and beyond for our valued customers.", said Roger McCracken, Co-Founder & Managing Director at Foods Connected.

Spencer Wicks, CEO of Mintec, said: "The partnership with Foods Connected will deliver an end-to-end solution to supply chain professionals that helps them better understand their supplier prices. The combination of tools and data will dramatically increase their confidence when sourcing raw materials."

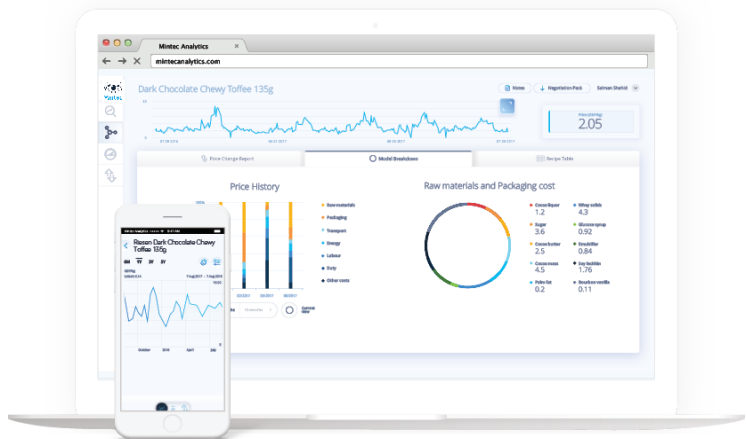

The integration, developed by Foods Connected, will form an important part of the Foods Connected Procurement and Supply Chain product solution.

About Foods Connected:

- Foods Connected is a Supply Chain Management Cloud Software Company founded in Northern Ireland. The software platform, which is highly configurable to individual business's needs, was created and is run by food industry professionals and promotes transparency and connectedness in supply chains allowing for quicker, more impactful evidence-based decisions. The company currently offers over 25 solutions to help those working in the industry do just that. Foods Connected pride itself on offering customers the information they need to find the right supplier, the right product, at the right quality and the right price. They were recently listed in Deloitte Ireland's 'Fast 50' tech companies of 2020.
