

Equipment Rental Software with Microsoft Dynamics 365 now offered by Unify Dots with partnership with Sycor Americas

Gold ERP Microsoft Certified Partner Unify Dots brings to market leading equipment management and rental solution to Microsoft Dynamics customers

SEATTLE, WASHINGTON, UNITED STATES, May 21, 2021

/EINPresswire.com/ -- Global Microsoft Dynamics System Integrator - [UNIFY Dots](#),

announced today that it has entered a strategic partnership with Sycor Americas in delivering rental software capabilities of Sycor.Rental with Microsoft's latest Enterprise Cloud based ERP platform, [Microsoft](#)

[Dynamics 365 Finance and Supply Chain Management](#).

Unify Dots teams up with Sycor Americas to boost Microsoft Dynamics 365 Finance and Supply Chain ERP native capabilities with Equipment Rental Management functionality from Sycor.Rental

With the partnership, UNIFY Dots is able to address the Equipment and Rental industry requirement to automate the entire rental supply chain by combining Microsoft Dynamics 365 native capabilities with Sycor.Rental solution. This offers end-to-end Rental process control by integrating all relevant activities & touchpoints on a single platform.

Microsoft Dynamics 365 Finance and Supply Chain ERP, formerly Microsoft Dynamics 365 Finance and Operations, provides support for business areas including, Financial Management (General Ledger, Bank Reconciliation, Accounts Receivable, Accounts Payable, Fixed Assets), Project Operations (Project Accounting, Project Management), Supply Chain (Inventory Management, Wireless Warehouse Implementations, Transportation Software, Procurement, Vendor Management, Distribution).

Sycor.Rental brings industry specific capabilities into Microsoft Dynamics 365 to help equipment companies improve efficiencies in managing Rentals, Service, Sales, Customer Relationship, Manufacturing, Distribution, Asset Management and Leasing.

It boosts Rental and Service functionalities and expands Microsoft Dynamics Supply Chain native capabilities by adding functionality for preventive maintenance and break-fix repairs, tracking of maintenance history for equipment, and workshop capabilities. It boosts out of the box rental capabilities of Microsoft Dynamics 365 ERP software with functionality for management of short-term and long-term rentals from quote creation to equipment return, billing and accounting at the equipment level, re-rents, exchanges and returns, choosing of right equipment based on user-defined attributes and rental availability.

Midsized to large rental businesses can benefit from various rental price structures, fixed asset integration and can easily manage their equipment lifecycle.

Users can conveniently schedule equipment, machines and personnel across locations, perform optimized route planning, stay up to date on cash flow, liabilities & more.
