By 2030, experts say, older seniors aged 65 and above will account for nearly a quarter of the total U.S. population. As a result, home health care has become one of the fastest-growing sectors in the U.S. economy. More seniors are getting their care at home rather than in nursing homes and senior-assisted facilities. That means opportunities for entrepreneurs to build a thriving home care business in your town or city to care for these seniors.

Dave the Nurse has already created a chance to learn this business in his video learning platform with the [Health & Wealth Academy](#) that offers entrepreneurs the information to learn, grow and start your own home care business. - \* Develop a turn-key entrepreneurial concept into a great business opportunity

- \* Find investors, find clients and create a thriving business
