

The Cardiovascular Medical Lasers Industry To Grow At Rate Of 42% With The Rise Of Unhealthy Lifestyles

The Business Research Company's Cardiovascular Medical Lasers Global Market Report 2021: COVID-19 Growth And Change To 2030

LONDON, GREATER LONDON , UK, May 13, 2021 /EINPresswire.com/ -- The global [cardiovascular medical lasers market](#) size is expected to grow from \$0.12 billion in 2020 to \$0.12 billion in 2021 at a compound annual growth rate (CAGR) of 0.8%. The slow growth is mainly due to deferring treatments that led to fall in the demand comparatively for the equipment. The market is expected to reach \$0.52 billion in 2025 at a CAGR of 42%.

The rising prevalence of cardiovascular diseases is expected to drive the cardiovascular medical laser market. The increased prevalence of cardiovascular diseases can be attributed to the increase in the use of smoking, physical inactivity, and unhealthy diet. For instance, according to the World Health Organization, in 2019, 17.9 million people died from cardiovascular diseases worldwide. According to the British Heart Foundation, coronary heart disease is responsible for around 64,000 deaths in the UK each year, an average of 180 people each day, or one death around every eight minutes. One in seven men and one in 12 women in the UK die from coronary heart disease. Therefore, the increasing prevalence of cardiovascular diseases is expected to drive the growth of cardiovascular medical lasers.
