

Florida USA Based, KCE Bed Company, Launches the New Design of the Adjustable Bed for Side Sleeping

KCE Bed, the Unique Redesign of the Electric Adjustable Bed, is for Side Sleep. Side Sleep is recognized by doctors & scientists as our wellness sleep position.

LARGO, FLORIDA, UNITED STATES, May 19, 2021 /EINPresswire.com/ -- Introducing KCE Bed, Kind Cuddle Embrace Bed, the Innovative Redesign of the Electric [Adjustable Bed](#) for Side Sleep.

In the 1970s, as watching TV and reading in bed increased in popularity, adjustable beds were introduced into the residential market. While users could adjust the angle of their heads and feet, the beds promoted back sleeping, doing little to ease a myriad of health problems known to negatively impact sleep.

The New Design of the Adjustable Bed, KCE Bed

“

KCE Bed, the Side Sleeping Electric Adjustable Bed Invented for Your Wellness and Good Night's Sleep!”

Mary Ann Schell

Many individuals experience relief from conditions such as sleep apnea, snoring, acid reflux, heartburn, body aches, high blood pressure, and anxiety when they adopt a [side sleeping](#) position. In fact, side sleeping is the #1 natural sleep position as described by doctors and scientists.

With this in mind, Mary Ann Schell and Gavin Wilson invented the authentic side sleeping electric adjustable bed. The Kind Cuddle Embrace Bed (KCE Bed), embraces users, encouraging effortless side sleeping to promote health, wellness, and a good night's sleep.

The innovative design of the KCE Bed adjusts the elevation of the mattress from side to side, embracing users in a comfortable and natural side-sleep position. This in turn offers extra

support for the sleeper's back, helps eliminate pressure points, and gives the sleeper an all-around better night's rest. The wireless remote-control system allows users to find their specific comfort position by adjusting both sides simultaneously or independently.

KCE Bed is the side sleeping electric adjustable bed invented for YOUR Good Night's Sleep!

About KCE Bed

KCE Bed is a family-owned and operated small business in the state of Florida, USA. KCE Bed is not mass-produced and quantities are limited.

Currently available in Queen and Full size in either white or pewter finish.

Special order colors are available. KCE Bed is manufactured using quality materials: steel that is powder-coated for long-lasting protection in a stylish appearance, equipped with supportive wood slats that are spaced for airflow, intentionally assembled with slow-moving motors to allow you to find your perfect embracing sleep position. Provided with a wireless remote-control system for ease of use to raise or lower each side simultaneously or independently. The quality KCE Bed will last for many years and provide for an optimal wellness good night's sleep.
