

Arthritis Monoclonal Antibodies Market To Grow At A Rate Of About 7% Through 2025

*The Business Research Company's
Arthritis Monoclonal Antibodies Global
Market Report 2021: COVID-19 Growth
And Change To 2030*

LONDON, GREATER LONDON, UK, May 18, 2021 /EINPresswire.com/ -- The [global arthritis monoclonal antibodies market size](https://www.thebusinessresearchcompany.com/report/arthritis-monoclonal-antibodies-global-market-report-2020-30-covid-19-growth-and-change) is expected to grow from \$44.82 billion in 2020 to \$48.08 billion in 2021 at a compound annual growth rate (CAGR) of 7.3%. Arthritis monoclonal antibodies market growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The arthritis MAbs market is expected to reach \$62.29 billion in 2025 at a CAGR of 7%.

The increasing prevalence of arthritis globally has contributed to the growth of the arthritis monoclonal antibody market. According to the Centre for Disease Control and Prevention (CDC), in 2020, the adult percentage of arthritis is 23% in USA which varies by country and osteoarthritis is the most common form of arthritis followed by gout, fibromyalgia and rheumatoid arthritis. According to WHO, the prevalence of rheumatoid arthritis varies between 0.3% and 1% and the worldwide estimates of osteoarthritis include 9.6% men and 18% women. The increased prevalence of arthritis and the demand for personalized medicine is increasing the demand for the arthritis monoclonal antibody market.
