RIADAC

RIA Digital Assets Council Certificate in Blockchain and Digital Assets®

"We congratulate these ten inaugural class members on their outstanding achievement," said RIADAC Founder Ric Edelman. "Choosing to attain knowledge of digital assets demonstrates their

commitment to their clients. Their clients can now be confident that they are getting the advice they need about blockchain and digital assets.”

Those attaining their certificate are awarded membership in the RIA Digital Assets Council and granted access to exclusive educational resources to help them serve their clients.

The 11-module online self-study program allows financial advisors from around the world to become fluent in blockchain technology, bitcoin and other digital assets. Advisors earn 13 CE credits while obtaining proficiency in key practice management areas pertaining to digital assets, including tax, regulatory and compliance issues as well as portfolio construction and management. Most importantly, advisors learn how to explain this new asset class to clients.

Designed by leading financial advisors, the Certificate in Blockchain and Digital Assets® is the only course of its kind tailored to advisors – and the program’s world-class faculty are foremost experts in the blockchain, digital asset and financial advisory fields.
