

ESI Technologies Welcomes Solsys to its Group of Affiliated Companies

TORONTO, ONTARIO, CANADA, May 25, 2021 /EINPresswire.com/ -- [ESI](#)

[Technologies](#) announces today an important partnership and significant investment in [Solsys](#), a Canadian company based in Toronto that helps organizations harness the power of their data. With this important participation, ESI will complement the existing service offerings within its security, data management and DevOps practices to complete its end

to end offering of mission critical IT Digital Transformation services to empower clients to adapt to the new normal, accelerate market share growth and profitability while maximizing digital resiliency.

“

We are excited about this new partnership that will help our clients face today's and tomorrow's challenges!"

Greg Rokos

"With its deep security and API development expertise, Solsys will enhance ESI's cybersecurity portfolio. To address the everchanging environment that the market is facing, this partnership will allow ESI to further address emerging market opportunities and needs" said Greg Rokos, President and Chief Executive Officer at ESI Technologies. "Solsys data-driven solutions are based on digital identity and intelligence, with a strong focus on API gateways and

cloud security. We are excited about this new partnership that will help our clients face today's and tomorrow's challenges!"

"The Solsys board and executive team are thrilled to form a strategic partnership with ESI Technologies. Solsys was in the market for a partner with a proven track record to grow our Digital Identity, Intelligence and API services market presence in Canada and the U.S." said Steve Manuel, President and CEO Solsys. "Most important to me is Greg and his team have similar values, culture and shared synergies that will enable our strategic year over year growth roadmap. Our products and services integrate seamlessly with ESI's Digital Transformation ecosystem. My team and I are energized and look forward to offering new and existing

customers a broader suite of products and services to solve business challenges.”
