

# Seven key takeaways from joining Aseptic Processing Conference in September 2021

*SMi Group reports: Aseptic Processing Conference will explore effective strategies and new regulations for compliant pharmaceutical manufacturing*

LONDON, GREATER LONDON, UNITED KINGDOM, May 18, 2021

/EINPresswire.com/ -- SMi Group are delighted to announce that the [Aseptic Processing Conference](#) will be held on September 20th and 21st in London, UK. This event will bring together industry experts that will explore aseptic facility design and operation to implement agile contamination control strategies.

The industry is also seeing crucial changes in regulation and guidance – fundamental documents and principles of implementation are in a pressing need to be dissected and discussed, and essential insights into applying Quality Risk Management practices to the manufacture of [biopharmaceutical products](#) are more relevant than ever.

Interested parties can register at <http://www.asepticprocessing.co.uk/PR2> and save £200, if booked by May 28th.

Industry experts will be giving insight into exploration of novel tools and technologies pushing innovation in the world of aseptic processing and sterile manufacturing.

SMi Group highlight [seven key takeaways from the conference](#):

1. Opening Address: Discuss the revisions and the impact of Annex 1 on aseptic manufacturing
2. Keynote Session: FDA's current expectations on sterile biotechnology drug product manufacturing
3. Annex 1 Deep Dive: Contamination control strategies (CCS) applied to three different product types for Annex 1 compliance
4. Keynote Session: Applying rapid micro methods in the manufacture of sterile products

- 5. Case study: Transforming an existing sterile operations facility and aseptic processes in line with the latest cGMP requirements (e.g., Annex 1)
- 6. Spotlight Session: A modular and flexible filling platform for toxic and biologically hazardous products that may include a freeze-drying process step
- 7. Case Study: Aseptic Competence at Fresenius Kabi - Case studies of Fresenius Kabi's global aseptic manufacturing

The conference is joined by senior microbiologists, cleanroom managers, sterility assurance specialists, senior QA's and QC's and those that are involved and interested in new regulations for compliant pharmaceutical manufacturing in aseptic processing.

Join us to explore novel and developing technologies that tackle the most pressing challenges and push innovation in the world of aseptic processing and sterile manufacturing.

The event brochure with the agenda and expert speaker line-up is now available to download from the website: <http://www.asepticprocessing.co.uk/PR2>

Sponsored by: Innerspace, Solo Containment and STERIS
