PAOW!, is a 100% plant-based, minimally-processed and ready-to-cook product created specifically for foodservice applications to allow for easy and convenient swapping of proteins on menus. With PAOW!, it's now possible to serve the exact same dish on menus - one made with animal protein and one made with plant-based protein - so diners can share the same dining experience.

Proudly made in the USA:

PAOW! Chef Style and PAOW! Pieces (plus Light, Dark Pieces and flavored Pieces) are all produced in the USA from USA-grown soybeans.

What this strategic partnership brings to our customers:

+Weekly deliveries in every market in the continental U.S. with a 2-4 day lead time, enabling you to respond faster to your customers' needs while at the same time increasing your inventory turns.

+Ability to purchase our products with no minimum. You can now order exactly what you need vs. having to meet our minimum and weight requirements.

+Increase the availability of our products with no minimums and shorter lead times.

+All marketing support from us to the distributor will continue on products purchased through Dot precisely as it does when distributors buy directly. This includes promotions and marketing growth programs!

In addition to this being great news to our customers, it is also great news to us as an organization. Dot sells to approximately 4,100 distributors in the food industry that can now source our product with a one-case minimum and two-day lead-time through Dot. This capability eliminates the majority of the operational challenges we encounter when trying to bring on new customers and place new items.
