“

Feeling better is about to get easier. Our new South Jordan location is sure to be very popular and really transform the lives of our customers in this area.”

Alex Cannon, owner and operator

IV hydration therapy offers a host of benefits and is used by many to alleviate symptoms associated with flu, migraines, seasonal allergies, weight gain, muscle pain, dry skin, joint pain, and even premature aging—among a variety of other ailments.

“When vitamins and supplements are taken orally, you may only receive 30 percent of the vitamin's nutritional value. With IV therapy, you receive 100 percent absorption,” said

Heidi Neville, Utah area representative for Prime IV Hydration & Wellness. "In order for nutrients to reach the cell and work effectively, they must be absorbed. Many people suffer from vitamin deficiencies or are unable to absorb nutrients correctly. With IV vitamin therapy, your nutritional balance and health will improve significantly."

This new store is located at 11516 District Main Dr, Suite 900, South Jordan, Utah (in The District retail center) and will feature the following:

- 10 specialized infusions with high doses of vitamins, minerals, amino acids, and antioxidants that provide 100 percent absorption to cells and tissues that need it most.
- Highly skilled and certified staff of medical professionals committed to their client's health and wellness journey.
- Services ranging from helping boost immunity to relieving chronic fatigue, allergy symptoms, migraines, Lyme disease and Lupus symptoms and improving athletic performance, accelerating recovery, reducing the effects of aging, enhancing weight loss, and many more.

"As part of our upcoming grand opening, we invite you to discover the endless benefits of IV hydration," said Audrey Cannon, co-owner. "As an essential health care facility, we will see patients for relief that has previously only been provided at emergency rooms and urgent care centers."
