

"UNLV School of Social Work has collaborated with Vegas Stronger in designing this research project, and will participate in analyzing the treatment outcomes data," said An-Pyng Sun, professor in the UNLV School of Social Work. "It is hoped that the research results can ultimately benefit homeless individuals with opioid use disorder."

Rabon will be overseeing the data collection, analysis, and presentation process of all outcomes of individuals that are treated by Vegas Stronger, over the age of 18, and considered at-risk homeless diagnosed with an opioid-use disorder. This task includes ensuring the integrity of data collection for the "13 elements", ensuring the 5 outcome measurements are empirically tracked, and the development and implementation of tracking a control group. Rabon comes to Vegas Stronger after nine years at Missouri State University.

"I can't tell you how pleased and honored I am to be a part of Vegas Stronger," said Professor John Stuart Rabon. "I am excited to be part of an organization with such an exemplary mission and work with spirited and enthusiastic people. The opportunity to further the mission of Vegas Stronger is a career highlight."

The organization will not be sharing any patient-specific information, only showing trends, correlation, and causation from the Vegas Stronger method.

About Vegas Stronger

Vegas Stronger is a 501.c.3 foundation in Las Vegas, Nevada. Established in 2014 by David Marlon, the Foundation's purpose is to bring about a systemic solution to the opioid addiction problem and homelessness in the United States, beginning with the Las Vegas Valley.
