

# Liongard Announces Partnership with Collabrance

*Alliance will focus on providing increased visibility and security for MSPs*

HOUSTON, TEXAS, UNITED STATES, June 2, 2021 /EINPresswire.com/ -- Liongard, an automation platform for managed services providers (MSPs), today announced a new partnership with [Collabrance](#), a white-label service desk provider for MSPs. Through the Collabrance-Liongard partnership, Collabrance will offer its service provider customers a greater span of systems security and efficiency with Liongard's wide-scope automation and visibility across the entire IT environment.

"The Liongard platform and relationship is a great fit for Collabrance's portfolio of solutions and our go-to-market approach," said Collabrance Vice President & General Manager, Corey Kerns. "By incorporating Liongard into our existing solutions and processes, Collabrance can offer MSPs

and their end-customers the visibility and information to improve their security-posture; it will also assist Collabrance and MSPs in improving their service delivery efficiencies."

## Benefits of Liongard

Liongard's Unified Visibility platform features trusted, automated documentation with Inspectors and Integrations to track historical changes and keep all documentation up to date to save time and increase productivity for MSPs.

- Unified Visibility delivered across the stack by Inspectors and Integrations that let you see mission critical information, all in one place.
- Custom, Actionable Alerts provide advanced notice about security certificate and domain expirations and eliminate reactive responses so MSPs can stay ahead of issues.
- Robust Reporting features the historical configuration data and can be exported and shared in 1-click for easy customer reports and QBRs.

“We are thrilled about this new partnership,” said Dave Nankervis, Director of Account Management at Liongard. “Both Liongard and Collabrance are dedicated to providing security-focused solutions for our partners, and we’re looking forward to being able to bring Unified Visibility to more MSPs.”
