Vastu Shastra For Your Home

Vastu Shastra is an ancient science that takes into account multiple aspects of your life and aligns them with your living space. It's often referred to as the "science of architecture" and relies heavily on the principles of design, layout, measurement, spatial geometry, and more to constitute the ideal home environment.

Unlike regular interior decorators that see a living space as an empty page to fill, Vastu Shastra sees your living space as a living soul that needs the balance of elements to prosper. Through this balance, your home (and, by extension, your family) can achieve a harmonious and peaceful existence.

While primarily used for interior décor, Pallavi Chhelavda is using her insight to help homeowners with custom home projects that best suit their needs. If you're looking to avail these services, you can contact Pallavi Chhelavda on 407-529-5714 or tune into her Vastu Live Shows to better acquaint yourself with the ancient practice.
