*Latest Book Release by Glenn Madden*

GREENVILLE, SOUTH CAROLINA, UNITED STATES, May 29, 2021 /EINPresswire.com/ -- Glenn Madden's new book [The Gods Lied Again](#) portrays Lucifer and other rebellious angels posing as gods who helped write the holy books. This includes the Torah, Bible, Quran, and other books in the Land of Glenn. It is a fictitious view of how things came about in an alternate universe much like our own. It starts with how the universe came about. It covers how the creation of humankind came to be in this alternate reality.

The book brings science together with creationism; from how the universe came about with a big bang to when God created dinosaurs. It shows how the first creation of God, including the dinosaurs, got destroyed. The book covers aspects of why many unholy books put creation at 6,000 years. Yet science shows the Earth is 4.5 billion years old and that some forms of man came along much sooner. You will find answers to why the creation of Adam only took place 6,000 years ago and why archaeology has uncovered human-like beings millions of years earlier. It shows how gods, angels, and religion developed with the civilization of humankind.

The story includes many gods and many religions. It shows that there is only one God but through that God, they have sent many messengers. The story covers much of why things have developed as they have. There are many similarities to the development in our world, but it is only fiction.

This book comes from a philosophy of Glenn after 54 years of praying and searching for answers. He has tried to understand God, creation, and Jesus since he was 12 years old when he accepted the Holy Spirit as his guide. Glenn has not studied a stack of religious books; he based his writing on beliefs after 54 years of prayer and soul searching. This is a culmination of learning after having read many of the holy books a few times, such as the Bible, Torah, Quran in English, and the Book of Mormon. He has also read from some of the Hindu Vedas and studied some beliefs of the Buddha. But Glenn contributes the foundation of the story as coming from the Holy Spirit, which is not a God but a teacher. The Holy Spirit is a gift left to us by Jesus until his return.

The book covers it all from the Torah, Bible, Quran, the Vedas, Greek gods, Buddhism, and Incan gods. Glenn tried to not attack any from his view but only point out truths. The story is about angels rebellious against the one true God who has deceived humankind, even until now with the election of Joe Biden. Glenn has tried to tie science and religion together from creation until

now. The book is based on a calendar starting with Adam as Year 1 and with him having been created 6000 years ago.
