

CloudConnect for Education is in the Microsoft Azure Marketplace

Microsoft Azure customers worldwide now gain access to CloudConnect for Education to simplify secure, cross-organization collaboration.

RICHMOND, VA, UNITED STATES, June 15, 2021 /EINPresswire.com/ -- Forsyte I.T. Solutions has announced the availability of [CloudConnect for Education](#) in the Microsoft Azure Marketplace, an online store providing applications and services for use on Azure.

“

We're happy to welcome Forsyte I.T. Solutions and the CloudConnect for Education solution to the growing Azure Marketplace ecosystem.”

Jake Zborowski, General Manager, Microsoft Azure Platform at Microsoft Corp

Forsyte I.T. Solutions customers can now take advantage of the scalability, high availability, and security of Azure, with streamlined deployment and management.

[Forsyte I.T. Solutions, a Microsoft Gold Prioritized Managed Partner](#), focuses entirely on using Microsoft technologies in supporting clients with secure IT infrastructures and creative products that empower digital transformation. Forsyte has created CloudConnect to simplify

organizational collaboration across tool sets and platforms and to allow automated access to resources that manage and connect user activity.

CloudConnect allows for the mass creation of Azure Business to Business (B2B) accounts across multiple tenants, as well as across an Exchange Global Address List (GAL) population. Customers can configure and synchronize CloudConnect in minutes without the need for infrastructure, firewalls, or network changes. CloudConnect enables customers to achieve collaboration with a low total cost of ownership (TCO).

“Since CloudConnect for Education has been in the Azure Marketplace, we have seen a continual increase in solution awareness and sales. Large systems such as State Departments of Education, Healthcare, K12, and Higher Education Systems can leverage the power of CloudConnect to join disparate tenants and take advantage of GAL sync as though operating in a single environment,” says Stefanie Dunn, CMO, Forsyte I. T. Solutions.

“Through Microsoft Azure Marketplace, customers around the world can easily find, buy, and deploy partner solutions they can trust, all certified and optimized to run on Azure,” said Jake Zborowski, General Manager, Microsoft Azure Platform at Microsoft Corp. “We're happy to

welcome Forsyte I.T. Solutions and the CloudConnect for Education solution to the growing Azure Marketplace ecosystem.”

The Azure Marketplace is an online market for buying and selling cloud solutions certified to run on Azure. The Azure Marketplace helps connect companies seeking innovative, cloud-based solutions with partners who have developed solutions that are ready to use.
