The District

"IV hydration therapy is a new thing for many people," said Alex Cannon, co-owner and operator. "Those who have come in so far or who have visited our Lehi, Riverwoods, and St. George stores have provided great feedback so far. To help people get more familiar with a service like ours, we invite anyone to make an appointment for a free primary IV between now and the end of May. There's no better way to discover the endless benefits of IV hydration therapy than to simply come in, sit in one of our massage chairs, and let us hook you up--literally!"

Prime IV customers give their experience high ratings. Emily H. wrote on Google, "I had such a great experience at Prime IV. The facility is beautiful. The staff are friendly and kind. There was a wide variety of product choices and the staff member who was helping me choose my IV was very knowledgeable and explained the options so well. The nurse who administered the IV was so sweet and made sure I was comfortable in their state of the art massage chair. Once I got all

settled the massage chair literally rocked me to sleep. That was three days ago and I've had higher energy ever since. I highly recommend Prime IV."

IV hydration therapy offers a host of benefits and is used by many to alleviate symptoms associated with flu, migraines, seasonal allergies, weight gain, muscle pain, dry skin, joint pain, and even premature aging—among a variety of other ailments.

This South Jordan store is located at The District and will feature the following:

- 10 specialized infusions with high doses of vitamins, minerals, amino acids, and antioxidants that provide 100 percent absorption to cells and tissues that need it most.
