

Sponsor A Ride Underwrites Fully Autonomous Cab Rides for Everyone

Reimburses travellers who use Waymo's new Driverless ride-hailing Service in Phoenix

CUPERTINO, CALIFORNIA, US, June 4, 2021 /EINPresswire.com/ -- Sponsor A Ride, the service that subsidizes Lyft, Uber, and taxi trips for at-risk Asians who feel uncomfortable using public transit during the current wave of anti-AAPI violence, is now reimbursing rides in autonomous vehicles, and users need not be Asian. "We want to see this technology succeed" says co-founder Anna Chu Lin, "and one way to do that is to offer free trips."

For now, the company agrees to reimburse fares for riders using [Waymo](#) One in the East Valley of Phoenix. This is the only place in the world where rides in fully [autonomous cars](#) can be hailed by travelers who are not testers or employees of the ride-hailing firm.

Users open the app on their phone and hail a car; after the ride they submit a form through the Sponsor A Ride website to qualify for reimbursement.

Sponsor A Ride is funded entirely by donors. These are recognized by inclusion in the group's Circle of Heroes.
