

Global LED Display Manufacturer, EZ LED, Introduces Free Platform to Further Direct View LED Video Wall Education

LOS ANGELES, CA, USA, June 8, 2021 /EINPresswire.com/ -- EZ LED Visual Co.,Ltd (EZ LED), a global, award-winning manufacturer of direct view fine-pitch LED display technology announces the launch of the EZ LED Academy, a free systemic direct view LED training platform that provides ongoing content that educates and informs commercial integrators, systems architects, and installation project managers of the latest in dvLED. The platform brings together industry leaders from Novastar, Nationstar, Macroblock, RGBlink, and Premier Mounts to give an expert view on each critical component in building dvLED videowalls.

Training Team for the EZ LED Academy

On this free platform, EZ LED and partner companies will introduce the audience to several of the key components and processes in building video walls. Deep dive topics include: LED diodes, IC drivers, LED control system, video processors, Mini LED (SMD, COB, IMD) and mounting hardware. "A huge part of building dvLED video walls is understanding all the technology around it. Having an overall understanding of each key component will reduce installation and service time for any level of installer." says Frecy Lin, President of EZ LED. "It's about understanding all the intricate details, and on the

“

The academy teaches all the intricate details, and on the platform, you will learn from top industry leaders in each category.”

Frecy Lin

platform, you will learn upfront about the expectations it takes and how exceptional solutions from different manufacturers come together to help companies achieve their goals.”

In addition, the platform will be regularly updated to cover new market insights, industry analysis, and emerging technology. For example, the emergence of micro-LED, a class of visual displays that features a sub 1 millimeter pixel pitch in the LED modules, will be covered

extensively. “We understand how quickly technology changes and want our platform to be an ongoing resource that helps integrators navigate the complexity of dvLED in an easy to digest form.”

EZ LED Academy is completely free for all participants. Information within the course is geared to a myriad of participants ranging from AV architects, consultants, systems integrators, technical directors, and business development professionals. To learn more about the Academy and the partners involved watch this [introduction video](#). To sign up for EZ LED Academy, please [register as a member](#) for access to online and offline learning resources. The academy will continually be an integral resource for those interested in dvLED display technology as materials will be continually updated to provide the best and most accurate information as technology continues to evolve.
