

Food Antioxidants Industry Players Increasingly Adopt Mergers And Acquisitions For Expansion Of Products And Geographies

The Business Research Company's Food Antioxidants Global Market Report 2021: COVID-19 Growth And Change

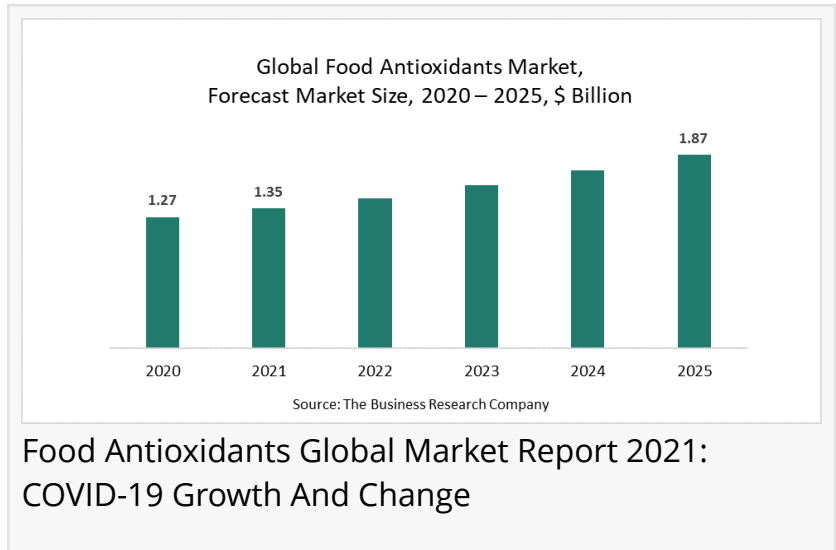

LONDON, GREATER LONDON, UK, June 9, 2021 /EINPresswire.com/ -- Players in the food antioxidants market are increasingly adopting mergers and acquisition strategies to expand the product portfolio and expanding operations in different geographies. Mergers and acquisitions give growth opportunities to the players in the

industry to maximize revenues through geographic and product portfolio expansion. For instance, in April 2021, Kemin Industries a leading ingredient manufacturer acquired Proteus Industries Inc. for undisclosed amount. Through this acquisition, Kemin expects to expand its portfolio by adding clean label phosphate alternative, meat block replacement and fat block solution along with the technology and human resources that Proteus has to offer. Proteus Industries is a food ingredient manufacturer that developed clean-label protein ingredients. Also, in January 2020, Dupont, which is a leading chemicals and bioscience company, entered into an agreement with International Flavors & Fragrances, to merge their nutrition and industrial biosciences division. Such mergers are key among [food antioxidants market trends](#), and is expected to benefit both the companies, and allow them to better serve their customers.
