

# Hand Sanitizer Dispenser Market Trends Include Technologically Advanced Products For A Competitive Advantage

*The Business Research Company's Hand Sanitizer Dispenser Global Market Report 2021: COVID-19 Growth And Change*

LONDON, GREATER LONDON, UK, June 9, 2021 /EINPresswire.com/ -- The launch of a technologically advanced hand sanitizer dispenser is a key trend in the hand [sanitizer dispenser market](#). Major players operating in the industry are continuously focusing on developing and launching innovative and technologically advanced products

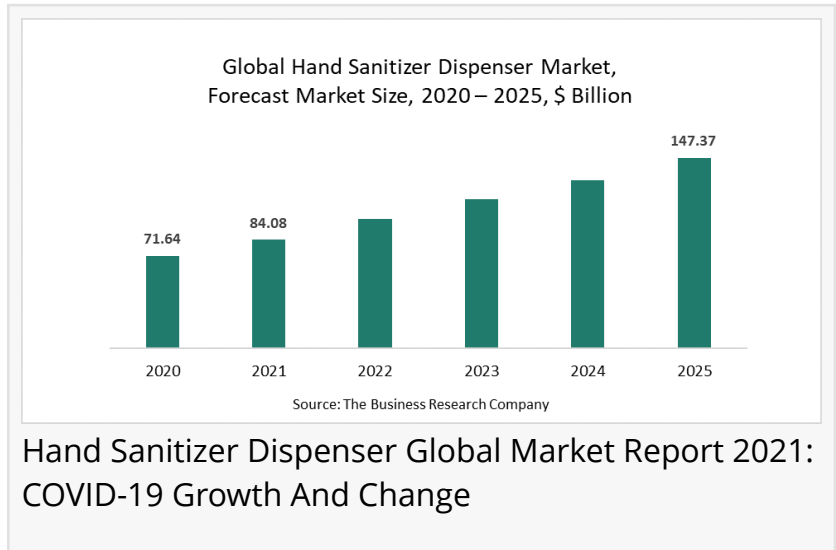

to gain a competitive advantage over the other players and attract a large consumer base, such as in the automatic sanitizer dispenser market. For instance, in September 2020, Elanpro, an India-based commercial refrigeration company introduced Elan safe Sani dispenser which is based on an infrared sensor that can be easily mounted on a wall or stand. In another instance, in April 2020, US based Starco Brands launched a new continuous spray clean aerosol hand sanitizer that primarily uses compressed air as the propellant. The continuous spray technology enables people to sanitize faster and efficiently with zero human to human contact.

The main types of hand sanitizer dispensers are portable and fixed. Hand sanitizers dispensers can be categorized as automatic and manual and is available in market at standard and mass price variants. Various distribution channels through which hand sanitizer dispensers are sold to consumers include supermarkets/hypermarkets, online stores, convenience stores, and others.

Read More On The Global Hand Sanitizer Dispenser Market Report:
