LONDON, GREATER LONDON , UK, June 9, 2021 /EINPresswire.com/ --

According to the new market research report 'Healthcare Personal Protective Equipment Global Market Report 2021: COVID-19 Growth And Change To 2030'

published by The Business Research Company, the global [healthcare personal protective equipment market](#) is expected to grow from \$7.54 billion in 2020 to \$8.61 billion in 2021 at a compound annual growth rate (CAGR) of 14.2%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The healthcare personal protective equipment market is expected to reach \$15.46 billion in 2025 at a CAGR of 16%. The increasing number of COVID-19 cases across the globe is projected to surge the demand for healthcare personal protective equipment.
