The Certificate in Risk Governance is awarded to those who have completed an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations and those who interact with boards. Taught by some of the world's leading figures in risk governance, the program features lessons by nearly 50 board members, c-level executives, and well-known

authors from five continents.

When asked about the program, Mr. Shaikh said, "The DCRO Institute provided me with this exceptional and comprehensive set of sessions that allowed me to know about all aspects of risk governance that as a board director I am likely to come across."

The Certificate in Risk Governance program, also known as [The Board Members' Course on Risk™](#), is unique. No course on risk for board members [as robust as this](#) - depth, practicality, and global expertise - exists anywhere else. The fundamental Duty of Care for directors around risk is to ensure that our organizations are taking risk well in pursuit of our goals and ambitions.

This course furthers the fulfillment of that duty. Information about the Certificate in Risk Governance program is available for download.
