

# Introducing Vision Boutique - Chicago's Best Dry Eye Clinic

*Doctors of optometry offering comprehensive exams, contact lenses, & designer eyewear*

CHICAGO, IL, USA, June 8, 2021

/EINPresswire.com/ -- Vision Boutique is a [Dry Eye Clinic in Chicago](#), now offering [TearCare relief](#) for Chronic Dry Eye

If your eyes burn, itch, sting, or feel sore, you may suffer from [Dry Eye Syndrome](#). Artificial tears and over-the-counter medications offer temporary relief, but do not extend a long-term solution to the pain, discomfort, or redness associated with Dry Eye.

So what is Dry Eye Syndrome, and what can be done to combat it?

Dry eye Syndrome is one of the most common eye conditions worldwide and is caused by chronic lack of sufficient lubrication and moisture on the surface of the eye. Some risk factors include computer use, wearing contact lenses, aging, menopause, smoking, frequent flying, Lasik, extended smartphone use, and general health conditions, among others.

The cure? Vision Boutique! Vision

Boutique offers effective treatment options to remedy Dry Eye Syndrome including TearCare relief and punctal plugs.

#### About TearCare relief:

TearCare relief is a wearable eyelid technology that administers gentle heat directly to the meibomian glands to liquefy the meibum and remove blockages, therefore stimulating tear production.

TearCare includes two flexible eyelid devices that are placed on your upper and lower eyelids. They're made of a soft and flexible material that conforms to your eye's natural shape. Unlike other treatment methods, TearCare allows the patient's eyes to remain open and blinking throughout the procedure.

The entire process typically lasts for 2 ½ minutes and takes place on site at Vision Boutique. After TearCare, your eye doctor may manually clear away obstructions released from the meibomian glands.
