NEW YORK, USUA, June 11, 2021 /EINPresswire.com/ -- After publishing [novel "White Gold"](#), Jordan Tate stars in short thriller film "Doctor Stevens" alongside a mystery actor.

Hitchcockian thriller filmed in black and white in New York during the lockdown, "Doctor Stevens" stars Jordan Tate, who also wrote the film, as a traumatized actress convinced the stalker who assaulted her is still alive and coming to kill her. As her partner, a mysterious distorted raucous voice, haunting the audience for 8 minutes of film length, a mystery actor simply credited as "the mystery actor" at the end of the film.

Tate's followers have been speculating on the identity of the actor who obviously is a professional artist giving a terrifying performance of this presence whose impending coming is feared throughout the short film, just like it is by the character played by Jordan Tate completely inhabiting her role in a very Dario Argento and Hitchcock's inspired style.
