towing away. They buy all kind of make, models, damaged, accidental, broken, junk cars, SUV, trucks, cars without title and virtually anything with wheels.

\$500 Instant cash for junk cars

The owner and the managing partner of Money4Vehicle, Eli said – “Selling junk cars can be a difficult task if a car is not in running condition for years. But we buy any condition junk car whether it is running or not. Usually, people will visit junkyards to get rid of junk cars. Sorry to say, but they don't value a car at all. A car owner cannot expect a good offer and proper car disposal from them. We value both customer's time and junk cars. We pay the best possible price for junk cars and keep the process of buying simple.”

“We follow an environment-friendly process for recycling junk cars. First, we remove all the hazardous material from the car and dispose of it. Then, all the reusable parts of the car are removed for reselling and use all the remaining scrap for steel. We have recycled many junk vehicles by now and are contributing our part in saving the environment. This kind of proper disposal also helps in reducing the accumulation of car waste in junkyards”.

Trade-In cars Vs Selling Junk cars

The trade-in car trend is growing rapidly, and car owners find it as the easiest way of disposing of their old car and buying a new car by paying the difference. But this does not ensure that car owners are getting the best price for their old car. The Trade-in car option is just like junking your car in a junkyard where you will get a fixed price for your old car irrespective of its actual value. Trade-in car option is more beneficial for car dealers than a car owner.

Money4Vehicle, offers a completely different approach. After talking to Eli, she shared the five-star rating her company has received on Google Map. She said – “We believe in a fair deal where customers can get equal benefits like us. Our offer prices are always better than any trade-in car prices. Moreover, our selling process is quite easy, and it saves a lot of time and energy. With
