While caregiving can be a very rewarding activity or career, especially when taking care of someone you love dearly, it can quickly turn into the most depressing thing when you can no longer meet your financial needs.

We all need money to live – we need to eat, pay rent, buy clothing, pay our bills, etc. Everybody needs a source of income, and if that’s what you are looking for by wanting to be compensated for your efforts, there’s nothing to be ashamed of. By being able to meet your financial needs, you actually get to improve on the quality of care you give, which creates a win-win situation for both you and your care recipient.
