

Freedom Founders Helps Practice Professionals Create Wealth through Real Estate Investing

One of the nation's best in dental retirement investing is lending a helping hand in helping practice professionals create wealth.

ROCKWALL, TEXAS, UNITED STATES, June 16, 2021

/EINPresswire.com/ -- Representatives with [Freedom](#)

[Founders](#) today announced that it helps practice professionals create wealth [through real estate](#) investing.

"At Freedom Founders, you will learn about growing your capital, savings, and nest egg steadily through real estate investing," said Dr David Phelps, Founder and CEO for Freedom Founders.

Dr Phelps explained that with the right properties under the person's belt through dentist real estate, they can get a steady income flow that supplements what they are earning at their practice. This allows them to build up that nest egg so they can retire at a reasonable age or use it in case of an emergency if they have to shut down their practice for an extended period of time.

"Dentists, doctors, orthodontists, and physicians are all expected to need to build up to \$10 million in savings or nest egg in order to retire comfortably," Dr Phelps revealed before adding, "Real estate investing for doctors can be time-consuming on your own; learning all the ins and outs of real estate, knowing what to buy, when to buy, and more."

However, at Freedom Founders, Dr Phelps noted, practice professionals will be connected to experts that can help them start real estate investing with like-minded individuals.

"Freedom Founders has a network of trusted advisors that can help with all forms of physician real estate, giving you access to those with the skills to help you build up your real estate portfolio without you having to figure out everything on your own," Dr Phelps said.

Dr Phelps went on to invite anyone interested to contact Freedom Founders to schedule a 10-minute [discovery call](#) with a member of its team to have a conversation about whether the

organization can empower them with the opportunity of passive income boosts.
