

# Global Wired Telecommunication Carriers Market Trends, Strategies, And Opportunities In The Market 2021-2030

*The Business Research Company's Wired Telecommunication Carriers Global Market Report 2021: COVID-19 Impact And Recovery To 2030*

LONDON, GREATER LONDON, UK, June 15, 2021 /EINPresswire.com/ --

According to the new market research report '[Wired Telecommunication Carriers Global Market Report 2021: COVID-19 Impact And Recovery To 2030](#)' published by The Business Research Company, the

global wired telecommunication carriers market is expected to grow from \$912.02 billion in 2020 to \$1000.19 billion in 2021 at a compound annual growth rate (CAGR) of 9.7%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$1213.74 billion in 2025 at a CAGR of 5%. The wired telecommunication carriers market growth is aided by stable economic growth forecasted in many developed and developing countries.

The wired telecommunications carriers market consists of sales of wired telecommunications services and related goods by entities (organizations, sole traders and partnerships) that provide local and long-distance voice calling, sound and video transmission, cable TV and internet services over fixed-line networks. Companies in the wired telecommunications industry may own and maintain networks, share a network or lease a network from other companies.

Trends In The Global Wired Telecommunication Carriers Market

Wired telecommunications companies are offering additional services to their consumers instead of limiting their service offerings to fixed line and DSL internet services. Companies are shifting towards a multi-function system by adding services such as internet broadband and
