

Introducing New 3M Respirators Made in Canada

*3M Respirators Made in Ontario,
Canada*

*Available for healthcare, frontline, and
other high-risk occupations*

BARRIE, ONTARIO, CANADA, June 15,
2021 /EINPresswire.com/ --
eGrimesDirect.com announced the
availability of the new 3M NIOSH-
approved N95 respirators are in stock
and ready for immediate delivery.

They are available through our website:
[3M Aura Health Care N95 Particulate
Respirator](http://3MAuraHealthCare.com) Surgical Mask 1870+ sold in
bulk cases of 440 individually wrapped
masks.

As of April 1, 2021, the first Canadian-
made [3M N95 respirators](http://3M.com) shipped
from the newly-expanded Brockville
Ontario facility. These high-quality
respirators are now available to all
Canadians in the frontline, healthcare,
or those in need of a higher level of protection. The expansion of the 3M facility ensures that a
consistent supply of respirators will be available to those frontline Canadians who need them
most, helping them to remain safe, now and into the future.

Among the most critical PPE for frontline workers is the NIOSH-approved (National Institute of
Occupational Safety and Health) N95 respirator, helping to protect them from COVID-19. Canada
increases its self-sufficiency by securing domestically manufactured products, thereby reducing
the risk of supply chain interruptions. Ensuring an adequate supply of PPE is essential to
reducing the pandemic's economic impact protecting the lives of all Canadians.

Jill Myers, eGrimesDirect: "We are delighted to get the new Canadian-made 3M 1870+ and 9205+ Masks out to our many customers that have been anxiously awaiting their arrival."

3M had produced over 2 billion disposable particulate respirators globally by the end of 2020, which has increased their production 3x since 2019. The expansion of the Brockville, Ontario facility will help 3M meet its 2021 objective of increasing respirator production to 2.5 billion globally.

"What motivated [us] throughout this project is that we're able to help the nurses, the doctors, the people in the hospitals, and keep them safe." - Emily Pringle, Operator at Brockville, Ontario, 3M Canada.

Grimes Industrial Products Group has been in the wholesale safety and industrial industry since 1959; and expanded into eGrimes Medical, focusing on Primary Care, Long Term Care, and Dental & Acute Care in 2007.

Health Canada MDEL 11598, Authorized 3M Distributor.

Established in 1959, Grimes is a privately held, owner-operated company.
