Hound, LLC and Greg Bounds for immediate use on the known 1715 sites off Sebastian Florida. The vessel was worked up with Gold Hound. TSR and was taken from Ft. Pierce to Sebastian Florida to work the thousands of targets that Bounds has surveyed off the known treasure wreck site. The Capitana, under Bounds, and with crew and divers from both Companies will now be operating on the target locations previously unsearched, using the new technologies and scanning we now have those pinpoint areas to be searched for expected dramatic recoveries.

The site area off Sebastian has been perpetually permitted with the State of Florida and has been the site of valuable recoveries from a suspected four wrecks from the renowned and enormously laden 1715 Fleet, which sank in July 1715 during a hurricane. Although much of the inshore areas have been worked, and many recoveries made, the vast amount of treasure, in the form of gold and silver coins, bullion bars, emeralds, jewelry, and other valuable items are still to be found. Through the exhaustive work of Bounds over the last year, he has tracked and identified thousands of “hits” extending out in un-searched areas

that show definitive trails of wrecks to be explored and recoveries to be made. Given the success that both Bounds and his company Gold Hound has had, along with Kane Fisher of TSR who has had numerous recoveries through the years on the site, TSR with this partnership looks for a great amount of treasure recovery to occur through the summer months. vessel to be worked with entered into a long-term agreement for partnership on proven perpetually permitted wreck sites off the East Coast of Florida for work during the summer season.

The Capitana is a specially outfitted large dive vessel with blower machinery, and large space for diving, and equipment made for treasure recovery. With other smaller vessels in support, TSR and Gold Hound are already on-site finishing surveys, and ready to have the whole crew and divers to hit the sites in the next week. These sites and targets are proven treasure troves, historically, and with TSR in partnership with Gold Hound, we look forward to a fantastic dive and recovery season.

With the vessels now ready, TSR will update and provide information on all aspects of operations, including video and other media updates in the short term. TSR has also activated an Instagram site for posts we will make available for videos and pictures on a daily basis.

## About Us

Treasure & Shipwreck Recovery, Inc.(TSR) is a Shipwreck Treasure Company with ongoing and future sites for the search and recovery of priceless treasure and artifacts from historic shipwrecks throughout the Caribbean. Currently, the Company trades under the Symbol BLIS, subject to a name and symbol change with FINRA. We are beginning first expeditions within days, going around Florida, the Keys and onto the first primary site at Cape Romain, South Carolina.

BLIS Info

Treasure and Shipwreck Recovery, Inc. (BLIS) is a treasure company built on decades of shipwreck recovery and experience. Operations will be very streamlined, so SGA expenses will be very limited. All recovery work is being done with existing permit holders as contractors to carry out the work, as well as new sites with partners. The BLIS gaming division is more independent and will be done outside of recovery and asset acquisitions of treasure from many sources, to build assets, sell some, and keep much for the company's own holdings. The BLIS goal is that 80% of all monies are used for operations, equipment, etc. for actual search and recoveries.

BLIS has a very attractive share structure with under 9 million shares outstanding, of which 7 million are held in control holdings and restricted to insiders, and less than 1 million are free trading, in limited deposits. BLIS management intends is to keep its share structure at 15 million or below for the next 2 years.

Additionally, BLIS has no convertible debt. Currently operations are being funded through the current money raise for operations and for the gaming division in two separate segments. This is well underway for wreck explorations throughout the whole dive season of 2021. With a 71 foot mothership, and other dive boats BLIS has financial coverage for operations. BLIS may raise capital for overseas recoveries in certain undisclosed areas, but not via convertible debt as other companies normally do.

BLIS has numerous revenue routes. One is to keep many artifacts and treasure as assets, to be shown in a planned BLIS location and museum. BLIS has already gathered significant recovered treasure. Second is the sale of treasure and artifacts through certain auction houses and arranged product sales for coins, etc. Third is private collector sales. Fourth is road show and museum show fees. Finally, holding rights to television and future gaming development. Currently, BLIS has many assets recovered, and under holdings.

## □ Gaming and Television Plans

BLIS intends to become a worldwide set of media brands for adventure, treasure and fulfilling the dream of everyone who ever wanted to have the adventure of a lifetime. BLIS has an existing gaming development relationship for an envisioned App game based on treasure hunting, and a television series will be worked during the next year. Constant filming of crew work and recovery will be published of ongoing operations via social media.

## □ BLIS Announces Operations, Searches and Further Discoveries, New Video of Operations Coming Up

On March 9th BLIS announced it has been conducting search, scan, recovery and acquisition operations of new and known treasure shipwreck recovery sites off the East Coast of Florida. The BLIS team has made a significant recovered acquisition of certain objects, including one that which is suspected to contain large precious gemstone materials that has been expertly examined, and its makeup will be announced shortly.

BLIS has partnered with permitted partners for certain sites, which will be announced in the near future as well. Such area as where the gemstone and other coins were found will be subject to in depth projects and searches. Some of the operations and acquired items will be displayed soon.

BLIS knows that together with the Galleon Quest game, the reality television show Galleon Quest would be complimentary in the marketing of the Company's recoveries, as well as the game and television alike, as well as bringing eyes to BLIS for the shareholders' benefit.

## □ BLIS Announces Famed Ship Treasure Hunter Kane Fisher as New Operations Manager

On March 2nd BLIS proudly announced Kane Fisher, of the Atocha shipwreck fame, as well as many other historic wrecks throughout history, as the company's new Operations Manager for all projects and recovery work. Kane has already taken out, led the BLIS team, and been responsible for major projects on treasure recovery sites. Kane is now leading BLIS expeditions on searches of new sites and known sites over the last two months. BLIS will also be partnering on known sites Kane has under his rights for further recoveries and finds.

Kane Fisher has been involved in treasure recovery and finding since childhood, with his famous father, Mel Fisher. Over 50 years Kane has been involved in the recovery of wrecks including the most valuable shipwreck in U.S. history the Spanish galleon Nuestra Senora de Atocha, which has valued recoveries over approximately \$700 million dollars. Kane has been involved in dozens of wreck site finds and recoveries off Florida and responsible and involved for an estimated over \$1 Billion in wreck recoveries, not just off Florida, but throughout the Caribbean. Other recoveries

include being involved with more the rich finds of the Santa Margarita, a sister ship of the Atocha lost in the same storm of 1622.

BLIS management knows that together with the Galleon Quest game, the reality television show Galleon Quest would be complimentary in the marketing of the Company's recoveries, as well as the game and television alike. All of this should also be very instrumental in bringing eyes to the BLIS for the shareholders' benefit.
