

# Acne Drugs Industry To Be Aided By Increasing Healthcare Spending In The Forecast Period

*The Business Research Company's Acne Drugs Market Report - Opportunities And Strategies - Global Forecast To 2030*

LONDON, GREATER LONDON , UK, June 21, 2021 /EINPresswire.com/ --

Increasing healthcare expenditure is predicted to upsurge the demand for the [acne drugs market](#). The growth in healthcare expenditure is aiding governments and organizations to spend more on prescription drugs, hospitals, and physical & clinical services, thereby driving the acne

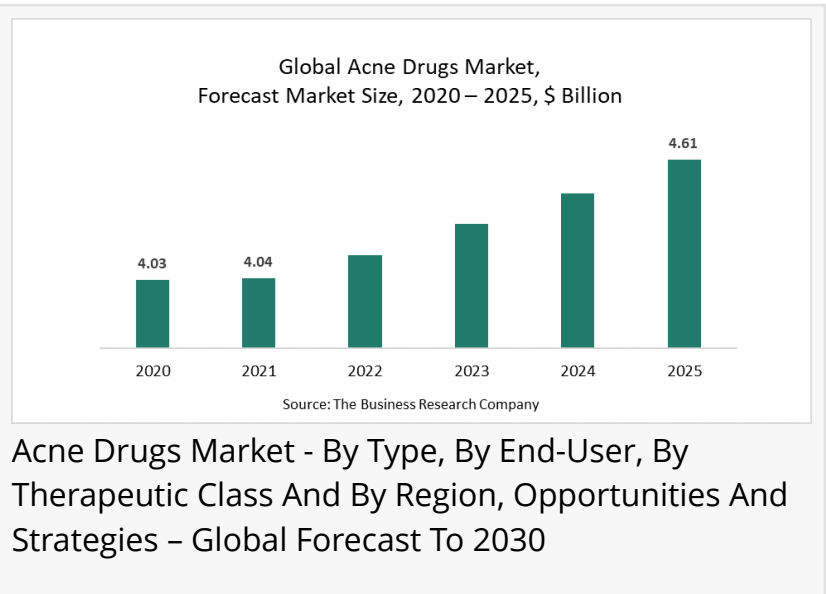

drugs market. The number of prescription acne treatments as qualified OTC products is also increasing which improves accessibility of acne drugs. According to the National Health Expenditure Projections 2018-2027, in the USA, the national healthcare expenditure is expected to reach nearly \$6.0 trillion by 2027, growing at an average rate of 5.5% annually from 2018 to 2027. Furthermore, prescription drug spending is projected to grow by 6.1% annually during 2020-2027. The rise in healthcare spending contributes to the growth of acne drugs market over the forecast period.

The acne medication market consists of sales of prescription acne drugs (Salicylic acid, Retin-A Micro, Onexton, and Solodyn) and related OTC non-prescription products (cleansers, lotions, gels, toners, masks and pads containing acne-fighting ingredients) which are used to treat skin diseases such as acne vulgaris and acne rosacea. The market in this report does not include the sales of drugs used for dermatitis and psoriasis.

Read More On The Global Acne Drugs Market Report:

<https://www.thebusinessresearchcompany.com/report/acne-drugs-market>

The global acne market is expected to grow from \$4.03 billion in 2020 to \$4.04 billion in 2021 at a compound annual growth rate (CAGR) of 0.2%. The slow growth is mainly due to deferring

treatments related to skin due to the outbreak of COVID-19 that has led to reduced demand for drugs comparatively. The acne treatment market size is expected to reach \$4.61 billion in 2025 at a CAGR of 3.4%.

[Major players in the acne drugs market](#) are Allergan, Galderma S.A., Valeant Pharmaceutical International Inc., Teva Pharmaceutical Industries Ltd. and Johnson & Johnson Services, Inc.

The market covered in the acne drugs market report is segmented by type into inflammatory acne, non-inflammatory acne; by end user into hospitals & clinics, pharmacies & drug stores, ambulatory surgical centers; by therapeutic class into retinoids, antibiotics, salicylic acid, benzoyl peroxide.

Acne Drugs Market - By Type (Non-Inflammatory Acne Drugs, Inflammatory Acne Drugs), By End-User (Hospitals And Clinics, Others), By Therapeutic Class (Retinoids, Antibiotics, Salicylice) And By Region, Opportunities And Strategies – Global Forecast To 2030 is one of a series of new reports from The Business Research Company that provides acne drugs global market overview, forecast acne drugs global market size and growth for the whole market, acne drugs global market segments, and geographies, acne drugs market trends, acne drugs market drivers, restraints, leading competitors' revenues, profiles, and market shares.
