

Milkio products are now Butterfly marked, as they're Non-GMO Project Verified

Milkio grass-fed ghee products are now Non-GMO Project Verified. The butterfly logo on the product approves the 100% purity & non-GMO claim of Milkio ghee.

TEXAS, HOUSTON, UNITED STATES, June 21, 2021 /EINPresswire.com/ -- Milkio Foods, New Zealand, is delighted to declare that Milkio grass-fed ghee products are now Non-GMO Project Verified.

The endorsement is one of the most stringent 3rd party verifications for non-GMO food products in the USA, with almost 60,000 certified products.

Milkio [Grass fed ghee](#) is prepared from 100% grass-fed milk fat of New Zealand grass-fed ruminates. It is a 100% natural product without synthetic color, flavor, or chemical preservatives. Being one of the best quality grass-fed products, like grass-fed ghee, 100% organic grass-fed ghee, and cultured organic grass-fed ghee, it contains up to 64% saturated fats, making it keto Paleo diet friendly.

Milkio grass-fed ghee products are cooked from 100% grass-fed, pasture-raised New Zealand cows' milk fat. For the apparent reason, they contain more Conjugated linoleic acid and butyrate for making it nutritionally potential than any non-grass-fed ghee variety.

Milkio grass fed ghee products are lactose, casein, gluten, carb, and sugar-free dairy with high smoke points and long shelf-stability.

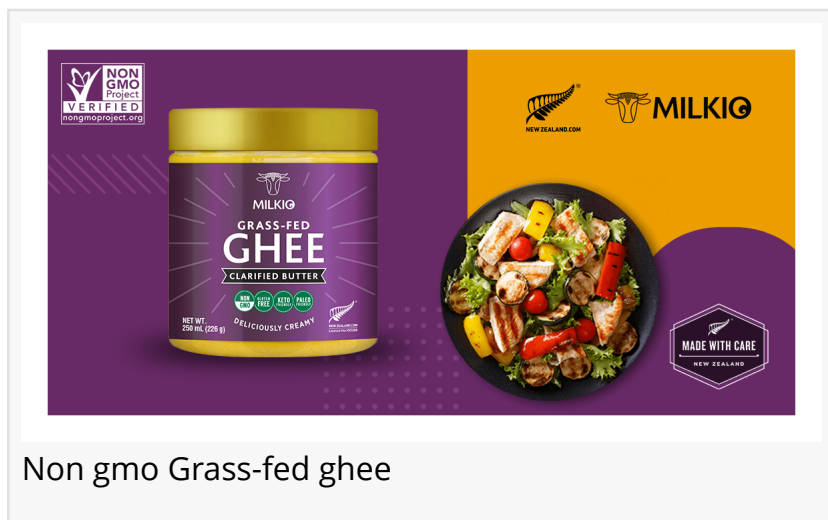

cultured organic Ghee from Milkio Foods

cultured Grass-fed ghee

Milkio Ghee has a minimum of ingredients; naturally delicious New Zealand milk butter is meticulously batch-processed naturally as much as possible to produce ethically and sustainably raised pure grass fed ghee.

Milkio Grass fed ghee is USDA certified for its 100% purity. BioGro, New Zealand, approve its organic claim. So now Milkio grass fed ghee products are Non-GMO Project Verified Non-GMO products.

Non gmo Grass-fed ghee

How does the Butterfly make a difference?

•US shoppers are more conscious of the traceability of their purchased food products.

“

Milkio Foods, New Zealand, is delighted to declare that Milkio grass-fed ghee products are now Non-GMO Project Verified.”

Milkio Foods

•80% of North American adult consumers consider that food quality is vital for health and wellbeing.

•66% are laying focus for butterfly mark as Butterfly on the label means it is pure and non-GMO food.

•58% of US consumers buy food brands that are made clean, pure, and from a good place, safe, and protected.

Butterfly mark on Milkio Grass fed ghee products is a validation of its purity, sustainability, and the assurance of

a premium quality product supported by a 150-year old deep dairy practice.

The Non-GMO Project verification at present applies to the following Milkio Grass fed ghee products:

- Cultured Organic Grass fed ghee
