Great Place to Work® has designated June 22 as Certification Nation Day to salute and recognize the companies such as KJ Technology who create great places to work for all.

"At KJ Technology, we're passionate about our people and strive to create an environment where our team can collaborate and bring out the best in all of us." said Adam Cohen, Partner, "Our team of rock stars serve our clients every day and receive continuous praise for their efforts. Great Place to Work® Certification™ is the most definitive "employer-of-choice" recognition that companies aspire to achieve. It is the only recognition based entirely on what employees report about their workplace experience – specifically, how consistently they experience a high-trust workplace. Great Place to Work Certification is recognized worldwide by employees and employers alike and is the global benchmark for identifying and recognizing outstanding

employee experience. Every year, more than 10,000 companies across 60 countries apply to get Great Place to Work-Certified.

According to Great Place to Work research, job seekers are 4.5 times more likely to find a great boss at a Certified great workplace. Additionally, employees at Certified workplaces are 93% more likely to look forward to coming to work and are twice as likely to be paid fairly, earn a fair share of the company's profits, and have a fair chance at promotion.
