Health Tourism Leap from Turkey

İZMIR, ALSANCAK, TURKEY, June 22, 2021 /EINPresswire.com/ -- Turkey accelerated its activities in health tourism with the decrease of the pandemic effects. Many patients from Europe, the Middle East and Africa have started to choose Turkey, where vaccination rates have increased significantly.

The decline of the pandemic effects worldwide and in Turkey thanks to high vaccination rates has increased the demand for health tourism. Clinic Mono officials, who provide medical services to foreign patients coming from abroad, especially in plastic surgeries, obesity surgeries and dental treatments in Izmir, reported that there has been an increase in the number of patients coming to the country and to the clinic, thanks to the measures taken by the Ministry of Health in health centers and airports.
