

123-Align Launches 'Smiles for All': At-Home Clear Aligners System at an Affordable Price

Thanks to 123 Align and Teledentistry innovations, now you can get a new smile at home from your mobile phone, tablet or computer.

FORT MILL, SC, UNITED STATES, June 22, 2021 /EINPresswire.com/ -- Are you hiding your smile behind a mask? U Smile Dental, LLC ("123-Align" or the "Company"), an FDA registered and HIPAA compliant dental aligner company, today announced the launch of ["Smiles for All": at-home clear aligners system at an affordable price.](#)

Smiles for All

Malocclusions or crooked teeth are one of the major oral health problems ranking third as per the World Health Organization. Despite of all the advantages of in-office orthodontic braces, 2/3 of the US population is suffering from malocclusion. This happens due to the high cost of current teeth straightening treatments and the inconvenience to attend numerous in-office dental visits during several months. These barriers have provided the global invisible aligners market a size valuation of USD 2.2 billion in 2019 which is expected to grow at a compound annual growth rate of 23.1% from

“

You don't have to hide your smile anymore... 1-2-3 Align, Smiles for All™!”

Daniel Uzbelger Feldman

2020 to 2027.

Thanks to 123-Align latest advances in medical polymer materials, 3D scanners, 3D printers and the incorporation of [100% Teledentistry-based aligner case review service](#), you can get a new smile from your mobile phone, tablet, or computer at an affordable price. This nationwide 'Smiles for All' at-home clear braces system closes the gap for those patients with lack of access to dental care while addressing a serious public health issue.

1. The innovative medical polymer material used in 123-Align clear aligner is highly transparent,

BPA free, latex free and 100% recyclable which is consistent with the company's green planet mission. 123-Align also utilizes high-end 3D scanning and 3D printing technologies to ensure not only a precise and comfortable aligner fit but also a successful treatment outcome for you.

2. The company consults with a team of expert US licensed dentists in 45 states to ensure medical/dental history and 3D treatment design review as well as invisible aligner case (mild to moderate) approval without visits to the dental clinic allowing time for the patients to focus on the things that matter to them the most.

3. In addition to the high-quality clear braces 123-Align provides through its technologies, techniques and experienced professionals, "[the company is democratizing the dental aligner industry](#) by focusing on you, the patients via an affordable aligner pricing," said Dr. Daniel Uzbelger Feldman, founder & visionary of 123-Align.

"Getting at -home clear aligners at an affordable price is as easy as 1-2-3: <https://www.123-align.com/>"

You don't have to hide your smile anymore... 1-2-3 Align, Smiles for All™!
