

Intertec International Achieves ISO 27001 Certification for Information Security

With this achievement, we are assuring our clients that all Intertec International's processes and systems satisfy the highest security standards, globally.

PHOENIX, ARIZONA, UNITED STATES, June 23, 2021 /EINPresswire.com/ -- [Intertec International](#), a global provider of custom software and IT services,

announced today its achievement of ISO 27001 Certification for its information security management practices following an intensive 18-month implementation process.

ISO 27001 is an internationally recognized set of information security standards published by the

“

My sincerest gratitude to all those who went above and beyond to make this happen. I am so proud of the Intertec Team!”

Rickard Hedeby, Intertec International Chief Executive Officer

International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) that govern the security of information assets such as intellectual property, financial information, employee information, as well as information entrusted by third-parties. Intertec’s certification is an independent validation of its compliance with these internationally recognized, rigorous standards.

Intertec works with their client’s as true partners. Their ISO 27001 Certification further demonstrates the

company’s commitment to excellence and the utmost security standards for their clients.

Intertec is excited to have achieved its ISO Certification, assuring current and future clients that their information is secure and safe with them.

“Reaching our ISO 27001 certification validates our promise to protecting the information assets of our clients, employees, and our business to the highest standards of information security at an international level,” stated Rickard Hedeby, Intertec International Chief Executive Officer. “My sincerest gratitude to all those who went above and beyond to make this happen. I am so proud of the Intertec Team!”

To achieve this certification, an independent audit firm (AENOR) validated Intertec's Information Security Management System compliance after a rigorous process of demonstrating an ongoing commitment and systematic approach to managing and protecting the organization and customer data.

"Implementing a certified Information Security Management System is an extensive organizational effort that involves every area and the creation of policies and processes to protect the confidentiality, availability, and integrity of information in every aspect of the operation", said Frederid Palacios, Intertec International Chief Information Officer. "Running a secure operation is a restless effort that requires a continuous commitment to safeguard the information and keep the guard up to adapt to new risks and constant changes in the industry. This certification is a demonstration of our commitment to quality and continuous improvement."

Because Intertec International is in the IT services industry, security, especially for client data, is taken very seriously. They have set the goal of continuously improve their security standards and will be audited every year to maintain this high standard.
