

# Stone Mining And Quarrying Market Drivers, Growth, Segmentations

*The Business Research Company's Stone Mining And Quarrying Global Market Report 2020-30: COVID-19 Impact And Recovery*

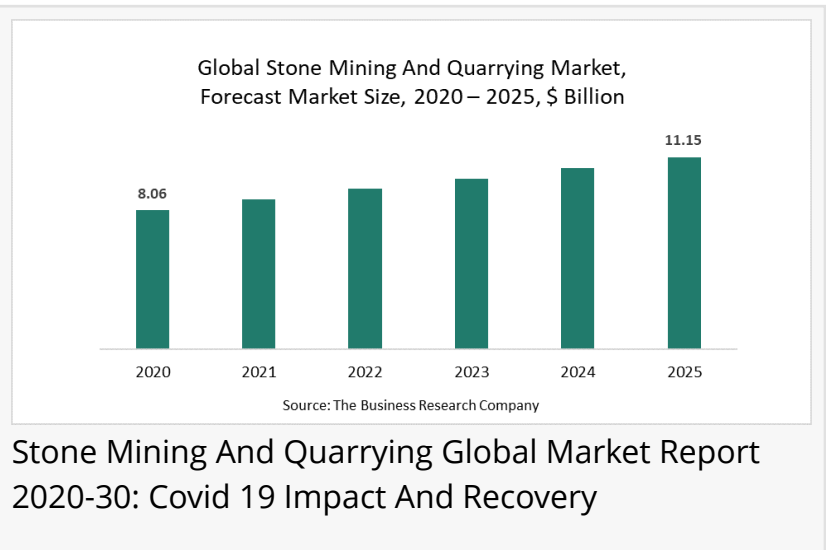

LONDON, GREATER LONDON , UK, June 23, 2021 /EINPresswire.com/ -- Growth in the historic period resulted from increase in demand for natural stones, strong economic growth in emerging markets, increase in production capacities, low-interest rate environment. The market was restrained by fatal accidents in mining, reduction in free trade, geo-political tensions. Going forward, government policies, growing capital expenditure on infrastructure development, increasing construction activities, improved logistics infrastructure will drive the growth of the stone mining quarrying market.

The stone mining and quarrying market consists of sales of stone by entities (organizations, sole traders and partnerships) that mine and quarry dimension stone such as rough blocks or slabs of stone and crushed and broken stone. It also comprises stone beneficiating activities such as crushing, grinding, washing, screening, pulverizing, and sizing.
