

procedures were performed under stringent standard operating procedures under general supervision by 81 physicians were 100% clinically successful, and no serious adverse events were recorded. Clinical success was defined as successful defecation.

The post-procedure surveys revealed high patient satisfaction and willingness to repeat at all clinic locations. [HygiRelief](#) has been shown to be safe, fast, agnostic to the cause of constipation, and has physician acceptance and outstanding patient satisfaction.

"This data together with previous publications confirms that HygiRelief® for constipation relief that is offered at our Hygieacare Centers has been shown to be safe and effective in over 2,000 patients with outstanding patient satisfaction" said Gavriel Meron, Chairman and CEO of HyGleaCare, Inc.

"HygiRelief is a life changing solution for chronically constipated patients and should be considered a primary medical alternative for patients suffering from constipation who have failed or are unsatisfied with other therapeutic alternatives ."
