*The Business Research Company's
Services For The Elderly And Persons With
Disabilities Global Market Report 2021:
COVID 19 Impact And Recovery To 2030*

LONDON, GREATER LONDON , UK, June
25, 2021 /EINPresswire.com/ --

According to the new market research
report 'Services For The Elderly And
Persons With Disabilities Global Market
Report 2021: COVID 19 Impact And

Recovery To 2030' published by The Business Research Company, the global [services for the elderly and persons with disabilities market](#) is expected to grow from \$335.88 billion in 2020 to \$382.81 billion in 2021 at a compound annual growth rate (CAGR) of 14%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$558.76 billion in 2025 at a CAGR of 9.9%. The decreasing household size coupled with a rapidly aging population is anticipated to aid in the growth of the services for the elderly and persons with disabilities market.

The services for the elderly and persons with disabilities market consists of the revenues from elder and disabled people services by entities that provide social assistance services to improve the quality of life for the elderly, persons diagnosed with intellectual and developmental disabilities, or persons with physical disabilities.

Trends In The Global Services For The Elderly And Persons With Disabilities Market

Many companies across the globe are using robots to smoothen the transition of providing care facilities to elderly patients. For instance, Bright Cape, an Eindhoven-based company, has

developed SARA, which stands for social and autonomous robotic health assistant. The project is part of the European EIT Digital Innovation Consortium and aims to reduce the workload in healthcare and to improve the quality of treatment in general. Japan is installing robots in nursing homes, workplaces and schools as its population ages and labor force decline.
